## 34 ROZALIA 24-LED

#### **Construction:**

The unit consist of a body (1). A shade (3) is mounted to the luminary body with a ring (2). A disk (5) separating electrical compartment from lighting compartment, is attached to a ring (2). A LED light sources radiator (6) is settled to the disk (5). LED modules (7) are mounted to the radiator (6) with a set of lenses, by screws. The modules are powered with a power supply (8). The luminary cover (4) is mounted to the luminary body (1) with a hinge and closed with a screw (10) so no additional tools are necessary. The luminary is sealed with a gasket (9) As an option, we equip the luminary with a ZHAGA socket (11).

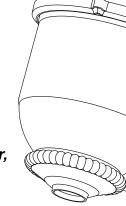

#### **Mounting instructions:**

- \*) Mount the shade (3) to the body (1) with a ring (2). Tighten mounting bolts.
- \*) Screw the LED light sources(7) with a lenses to the radiator (6), mount a disk (5) to the body (1).
- ) Connect the electrical cables according to the scheme.
- Close the cover (4), screw the bolt (10) using hand.
- Luminary is mounted to the lantern depending on the pole construction either hanging on M20 thread or mounted on the top of the pole on ø45-ø90 diameter.

If any lantern elements are supplied factory-mounted, the mounting stages marked with \*) should be omitted (as this has already been done by the manufacturer).

#### Technical data:

- Power: ~220-240V / 50-60Hz
- Ambient/work temperature : -30°C do +35°C
- Protective class: I
- Ingress protection code: IP66
- Mechanical impact protection code: IK10
- Surge protection: to 10kV
- Life time: L90, B10 >100 000h
- Controls method: 1-10V, DALI, Ampdim, Dynadimmer, as an option socked ZHAGA with SR driver (D4i).

## 34 ROZALIA 24-LED

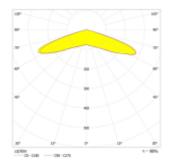

#### Available lenses - Photometry (polar plot):

1.Basic lens ME

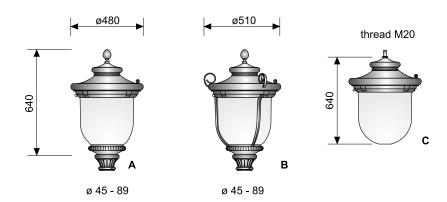

2.As an option lens T3

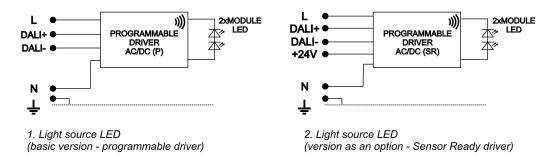

3.As an option lens VSM

### Versions/assembling:

### **Electrical diagrams:**

-programmable driver (P) enables programming of a five-steps power reduction, surge protection to 10kV -programmable driver (SR) enables to be powered wireless communication devices, via a ZHAGA socket, surge protection to 10kV

-detailed specifications of the power supplies include catalogue cards of their manufacturers, which we provide on request
